Nature alternative / Alternative natures

Curated by Pasquale Fameli

8 November 2025 – 10 January 2026

On **Saturday 8 November at 6 pm**, *NATURE ALTERNATIVE* opens at Galleria Studio Cenacchi, Via Santo Stefano 63, Bologna. The exhibition is curated by **Pasquale Fameli**, who is also the author of the critical text.

The fifteen selected works establish a dynamic and constructive dialogue with the gallery's three exhibition levels and, at the same time, with one another, creating a coherent and engaging visual itinerary.

From the material textures of **Zeno Bertozzi**, whose research explores the expressive potential of plaster and ceramic, the exhibition moves to the iron sheets of **Francesco Bocchini**, who is also represented by a porcelain work from one of his recent and innovative series.

The poetic, suspended visions of **Domenico Greci** and **Alessandro Saturno** evoke a natural imagery filtered through an intimate sensibility, while the dense, materially charged jungles of **Pietro Caponetti** open onto the dimension of gesture and matter.

Completing the exhibition is a small yet intense work by **Giorgio Zucchini**, chosen as the key image for the show, which encapsulates the energy and cohesion of the entire group project.

The curator writes:

“Within a contemporary landscape dominated by the dematerialisation of images and their relentless digital circulation, the relationship between art and nature once again emerges as an urgent and necessary question. At a time when visual experience seems to have lost substance and concentration, the artists in this exhibition choose to recover a profound dialogue with matter, understood not merely as a subject to be represented but as a living organism to be questioned and transformed.”

And further:

“It is an ‘other’ nature, no longer something to contemplate but something to question: it offers no answers, but raises questions. Within this imaginary landscape, viewers are invited to lose themselves, to recognise in the otherness of the flower, the leaf and the branch something profoundly human. ‘Alternative nature’ thus becomes a metaphor for our contemporary condition: fragile, mutable and in search of new roots.”
